

1. Candidate strategies

Candidate strategies - real choices

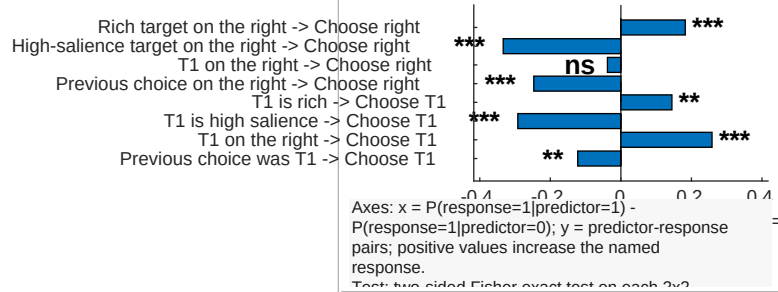

2. Choice by task condition

Choice by task condition

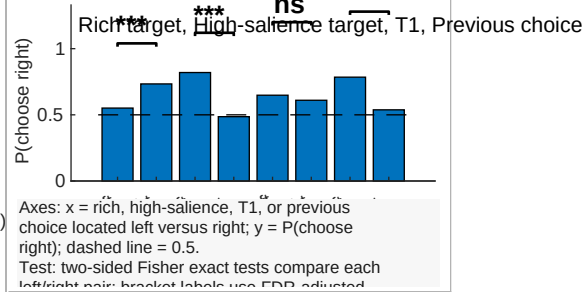

3. Conditional associations

Conditional associations - real choices

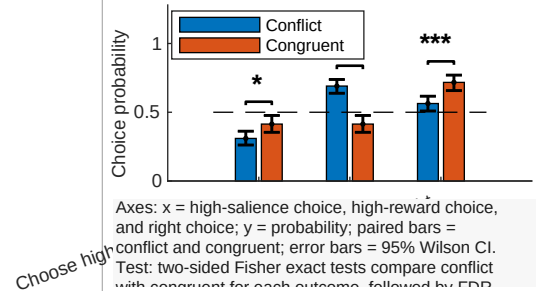

4. Conditional spatial influences

Conditional spatial influences

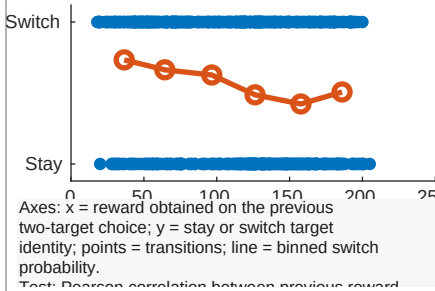

5. Conflict versus congruent

Conflict versus congruent

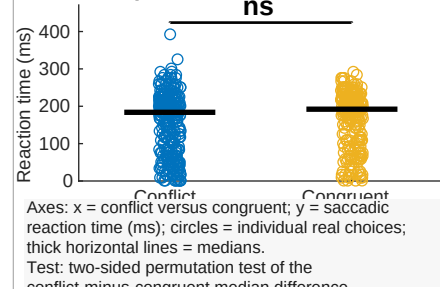

6. Previous reward versus identity switch

Previous reward vs switch: $r=-0.188$, $p<0.001$ ***

7. Reaction time

Reaction time | median difference $p=0.148$ ns

8. Recap
